Argent Pushes Forward Growth Plans with the Appointment of Kevin Foakes

Argent Liability Adjusters, part of the Parabis Group, is delighted to announce the appointment of Kevin Foakes as a Director.

Kevin joins Argent from Garwyn, where he held senior operational and client relationship positions. Kevin has some twenty years market experience and brings with him extensive operational, technical and client development expertise.

Commenting on the move, Managing Director Neil Ventris said:

"In recent years Argent has established itself as a significant player in the specialist liability adjusting market. We now see the opportunity to build on that reputation towards a market-leading position. One of the ways we plan to do that is through selective recruitment of quality individuals who share our passion for technical expertise and give our clients consistent first class service through close working partnerships.

"In Kevin we have a seasoned professional who shares our ambitions for our clients, our staff and our business. We are delighted that he saw us as the right employer with whom to further his career.

Kevin commented:

"The time came to move my career on to the next level and I identified Argent as the ideal place to do that. Argent is highly regarded by the market and I am excited by the prospect of working with them".
